

INVESTIGATING LONDON RIOT

In Which Several American Soldiers and Sailors Were Hurt by Police—"Canucks" and "Aussies" With the Yanks.

By Telegram to The Freeman.
London, March 10.—A thorough investigation is being made today by Provost Marshal Major Campbell, U. S. A., into the riot in the Strand yesterday in which a number of American soldiers and sailors and police-men were wounded.

In the fighting, which started after a policeman arrested two Americans for "shooting craps" behind Eagle hut, Australians and Canadian soldiers joined on the side of the Americans.

Corporal Zimmerman, of Company 542, from Winchester Camp, was clubbed by a London policeman when he ran forth from Eagle hut in an attempt to prevent the American sailors from charging against the police line.

A wild rumor got abroad some way that Zimmerman had died in Bow street station and several soldiers returned to Eagle hut to procure rifles just brought in by a bunch of men on leave from France.

Use of Rifles Averted
During a lull in the fighting two motor trucks filled with American soldiers just in from France on furlough threaded their way towards Eagle hut (an American rest hut for soldiers and sailors).

At the sight of the bayoneted rifles carried by the doughboys the Australians set up the shout: "That's the stuff. Give them the bloody steel!"

But Y. M. C. A. attendants rushed out and carried the rifles into the hut themselves. Upon representations of Lieutenant Sears and Lieutenant Porter, American officers, Inspector Wilson withdrew all the policemen to Bow street, a block away where they were massed in dense formation around the Bow street station.

Lieutenant Porter and Lieutenant Sears had rushed to the scene from the provost marshal's office in an automobile to disarm the Americans. Thirty military policemen, who had been held in reserve at Eagle hut, were sent out to Aldwych street to rather in all Americans they could find.

Five Americans in Hospital.
As the police lines were drawn back from the scene of the original fray a crowd followed but did not attack.

Red Cross ambulances carried off five Americans, including two stretcher bearers, and one Canadian. All had been hurt.

Major Campbell visited the Bow street police station to take over the American prisoners. The soldiers were sent to his office and the sailors to naval headquarters.

Major Campbell was asked for a statement, but replied: "I cannot trust myself to make one now. But a thorough investigation is proceeding."

At the hospital the names of the Americans taken there with military policemen, who were said to be P. C. Field, was reported to have a fractured skull.

A sailor named A. A. Towner, of Chicago, was wounded, but not seriously enough to go to the hospital.

About twenty American soldiers and sailors were arrested.

SEEK PUNISHMENT FOR EX-KAISER

Legal Advisers of Peace Conference Unable to Find Way to Reach Him—Is Seen as Lifelong Menace to World Peace.

By Telegram to The Freeman.
Paris, March 10.—The fate of the ex-kaiser is becoming more and more a thorn in the side of the peace delegates. The fact that legal advisers to the conference have found no means of proceeding against him criminally opens the question whether the Allies will be able to reach him at all. The committee on responsibilities is understood to be undecided yet how to act, but may try to find a solution by banishing him to some desolate island such as was done with Napoleon.

If this course is adopted the next question will be how legally to get the former emperor from Holland. On the other hand, if he is permitted to remain in Holland, he undoubtedly will menace the world's peace as long as he lives. The fact that Germany now has been thrown into anarchy and chaos leads many to believe that, if the peace conference does not act, the ex-kaiser or the former crown prince might easily rally supporters to restore them selves to power in Germany. Some about this idea, but those familiar with conditions in Germany express the opinion that a majority of the people would welcome the return of the former emperor.

There is no question that the peace delegation desire to punish the perpetrators of the war and adopt some means of proceeding against Von Tirpitz and others, but with the ex-kaiser his status is said to be difficult. This is based upon the opinion that the former kaizer, as the head of a state voiced sentiments which are now conceded to be the sentiments of a majority of the German people.

JEAN PONSOLLE NOT YET FOUND

Mystery of Woodstock's Child's Disappearance Grows Deeper as Thorough Search Fails of Result—Wild Animal Theory Brought Up.

What has become of Jean Ponsolle is a mystery that is puzzling the people of Woodstock as well as all others who have been informed of the disappearance of the boy.

He is two and a half years old, son of John Ponsolle, who is employed by R. R. Whitehead, at the Byrdcliffe farm, his wife also being employed there as cook. About 5:30 o'clock Saturday afternoon Jean came into the house and asked his mother for an apple, saying he would give part of it to his brother, who was outside. A short distance away she saw the youngster with the apple and he went out. That was the last she saw of him, and his little brother has not seen him either.

Private John Carney, who was in the thick of the big fight in France, being a member of the 27th Division, is home on a twenty-four hour furlough. He arrived from overseas at Camp Merritt until after the big parade in New York, March 25th. Private Carney is a machine gunner.

Andrew J. Worf, one of the 13 Ulster county men who enlisted in Co. I, 71st N. Y. N. G., when that company was stationed here in the spring of 1917, and was later transferred to Co. I, 164th Infantry, 27th Division, came home Sunday evening and will return to camp Tuesday. Mr. Worf was badly gassed and has not yet fully recovered.

David Kidd of this city received a telegram today from Private George Lowe of the 348th Infantry stating that he had arrived safely from overseas on the U. S. S. Chicago and has been sent to Camp Dix for demobilization. He returned to this country from Bordeaux, France, and arrived in New York Saturday. Private Lowe was a member of the contingent that left Kingston last July and went overseas one month later from Camp Dix.

Harold A. Styles has been honorably discharged from the U. S. Army and has returned to his home on Main street. During the past year and a half Mr. Styles has been connected with the army intelligence which is the secret service of the Eastern Department. Mr. Styles held an exceptionally confidential position and being a chorhand reporter, his work consisted chiefly in reporting examinations of enemy spies and suspects conducted by high army officials. He will resume his position as stenographer of surrogate court the middle of March.

27TH TO PARADE ON MARCH 25TH

Gen. O'Ryan Wants Former Members of the Division From Ulster to Participate—Expenses Will be Paid.

Major General John F. O'Ryan has announced that former members of the 27th Division in upstate cities and towns will be expected to join in the parade in New York city March 25. He said every expense incident to the trip to New York would be paid, and that wounded and discharged men would be given a welcome unsurpassed in military history. All that is necessary for them to do, he said, was to apply to the mayor, town clerk, special committee, or even their local pastor, as the case might be, and transportation would immediately be given them. Arriving in New York they will be met by officers of the division. Funds will again be supplied them for use in New York city and return passage provided.

IN THE SERVICE OF OUR COUNTRY

Corporal Charles Kelsie, Co. B, 107th Infantry, 27th Division, spent the week end at his home on Smith avenue.

Lieut. Rudolph Dittus, back with the 27th, is expected home on a furlough this evening on the West Shore 5 o'clock train.

Clarence Mains, a member of the recently returned 27th, spent Sunday at the home of his parents on Greenkill avenue.

Harry Kolls, son of Supervisor Kolls, who is a member of Co. B, 107th Infantry, 27th Division, spent the week end at his home here.

Private Charles A. Cole of Co. B, 107th Infantry, spent a 24 hour furlough with his mother, Mrs. E. Cole, of 14 Purvis street and was met with a hearty welcome by all his friends.

Word has been received by Mr. and Mrs. Stanley Kregoskie from their son, Private Leo Kregoskie, of Headquarters Co., 39th Infantry, who has been gassed and wounded, that he has arrived "over here" and is stationed at Camp Merritt.

Miss Helen M. Castle of 155 Prospect street has received from her brother, First Class Private Burton M. Castle, a German helmet, also two brass vases made by French soldiers from shells picked up on the battlefield in the Argonne Forest. They are now on exhibition in the window of Scrube's news store, Broadway.

Mr. and Mrs. DeWitt Barley of Accord have received a telegram from their son Severn J. Barley, saying he was feeling fine and at Camp Mills, having arrived on the Leviathan with the 27th Division, being in the Signal Platoon of the 106th Infantry. All will be glad to welcome him to his old home town.

Private John Carney, who was in the thick of the big fight in France, being a member of the 27th Division, is home on a twenty-four hour furlough. He arrived from overseas at Camp Merritt until after the big parade in New York, March 25th. Private Carney is a machine gunner.

CONFERS ON 27TH DEMOBILIZATION

Major Reports Difficulty in Having All Kingston Men Released at Once—New York Committee Appeals to be of Aid to Ulster Soldiers.

While in New York city on Saturday, Major Canfield conferred with the military authorities in charge of the demobilization of the 27th Division and with the committee in charge of the parade in New York on March 25. The major reports it will be difficult to have all the Kingston boys discharged at one time as they are distributed throughout the division, but hopes to be able to do so. The New York city committee appointed by the mayor is also busy taking effective measures to help any of the boys of the division from Ulster county. They held a meeting Friday afternoon to adopt measures to look after the boys. They decided to go to Camp Merritt on Sunday and get in touch with the boys and Captain Sanderson to let the boys know that they can communicate or reach the committee at any time and receive any reasonable and proper aid and assistance. The parents of the boys are requested to notify their boys to that effect, as the committee did not probably come in touch with all of the boys.

Parents Can Direct Boys.
The committee consists of Joseph Drake, 116 Nassau street, Arthur McCausland, of the firm of Parker, Marshall & Randall, 111 Broadway, Edward A. Kelly, manager of the Clyde & Mallory line, Pier 45, N. R., Arthur Connors, of Schoonmaker & Connors Co., Inc., 17 Battery Place, and John E. Curtis, manager of Phoenix Assurance Company, 109 William street. If any of the boys need a friend in New York city at any time they can get in touch with any of these former Ulster county boys, who constitute the Ulster county committee in the city of New York.

No committees are allowed to visit the boys in the hospitals. Nevertheless this committee is trying to keep track of all Ulster county boys who may be confined in any of the hospitals in and about New York. They report Private Christian Melbert of this city has been transferred from Greenhut Hospital to East View.

There are 8 trailers, 29 dealers, 1,191 chauffeurs, 290 motorcycles. Receipts to the automobile bureau from the county were \$46,004.75, the sum being divided between state and county, and available for highway purposes.

Of the 463,755 cars registered last year, 138,449 are in Greater New York, the metropolis claiming 39,029 of the 365,874 pleasure cars; 34,973 of the 147,754 chauffeurs; and 8,046 of the 28,597 motorcycles. New York state has about one-tenth of all the cars in the United States.

There were 4,498 cars registered in this state last year by persons residing in other states; the total number of cars exempt from registration fees last year was 2,269, 1,023 being in New York city alone. Miscellaneous fees to the auto bureau amounted to \$128,422.50.

By Telegram to The Freeman.
Albany, March 10.—Ulster county has a car for every 15 of its residents. The ratio of car to population in this state is 1 to 20.

Official figures made public by Secretary of State Francis M. Hugo show 463,755 motor vehicles registered in New York State last year, a gain of 52,191, or 12 per cent. Pleasure cars increased 8 per cent; commercials 36 per cent. Motorcycles dropped from 28,775 to 28,597. Total receipts to the automobile bureau were \$4,945,297.50, a gain of \$661,182.

Ulster county registered 3622 pleasure cars, an increase of 49; 674 commercials, a gain of 256. The total registration for the county was 4754. There are 8 trailers, 29 dealers, 1,191 chauffeurs, 290 motorcycles. Receipts to the automobile bureau from the county were \$46,004.75, the sum being divided between state and county, and available for highway purposes.

CONSCRIPTION MAY BE ABOLISHED

Supreme War Council Impressed By British Plan—Would Limit Germans to 70,000 Long Service Men.

By Telegram to The Freeman.
Paris, March 10.—The supreme war council today took up discussion of the military terms to be imposed upon Germany. These terms will make up part of the draft of the preliminary treaty.

Marshal Foch spent the week end studying the plan submitted by Premier Lloyd George to limit Germany's armed strength to 70,000 long service men. He was expected to report on it today.

Civilian members of the council are tremendously impressed by the British contention in favor of the abolition of conscription. This is recommended on two immensely important grounds:

1.—It would prevent the Germans from building up a secret army by annual training of 200,000 men (the number suggested originally as the size of new Germany's army.)

CENTRALS AND
CRESCENTS WIN

Saturday night at the Y. M. C. A. two fast games of league basketball were played.

The first game was between the fast Crescents and the Scholastics, which was won by the first named team with a 42-29 score. This game was very exciting from the start but the Scholastics were not quite up to the standard of playing needed to defeat the Crescents. However, both teams exhibited exceedingly good work throughout the game.

Reckum, Jones and Culloton did the high scoring while Goldberg and Murray held the opposing guards Murray made a very fine clean shot from center.

Everybody on the Scholastics team did very good and no man outscored the rest.

Total 11 7 29

The second game was between the Centrals and the Triangles, which was won by the former team. The Triangles did not play harmoniously and their luck at shooting was unusually poor. They did not go down to defeat without a good hard fight though, but showed that they were good losers. Doig was not in trim as he had been "off red" all week, but played because there were no substitutes for him.

R. Rourke made some wonderfully clever baskets, as did Johnson. Palist, Kiernan and J. Rourke did show nice shooting, too, making them count from the center.

This puts the Triangles in second place with the Crescents and Centrals tied for first in the league.

The score was:

W. C. T. U. JUBILEE

Drive Begins March 20 And Plan Mass Meeting March 31.

A great mass meeting in Kingston is being planned by the white ribboners of our city, to be held on

March 31, in the interests of the Jubilee Campaign now being staged by the National W. C. T. U., which

has planned to increase its membership from half a million to one million and to raise the sum of one million dollars to extend the different

branches of their work in this country and begin a campaign for world prohibition.

Mrs. Deborah Knox Livingston of international fame will make the principal address of the occasion. Every one should take this opportunity

of hearing her. It is expected that the Hon. Joseph M. Fowler, county judge, will also speak at this

meeting. The drive lasts ten weeks and will begin on March 20, lasting until May 31, and Kingston will do its bit toward raising \$2,325, Ulster county's quota of the million dollars to be raised.

Any one desirous of contributing may send their subscriptions to Mrs. D. B. Hendricks, 119 Elmendorf street, Kingston, the treasurer of the Ulster County W. C. T. U., and those

who desire information about the work or plans being made may address Mrs. Edward Young, Milton, N. Y., who has been appointed to direct the campaign in Ulster county.

Yet to Come.

"Little Clarence (after a season of profound exaltation)—Paw-uh!

Mr. Collpers—Well, my son?

"Little Clarence—Paw, why don't women wear whiskers on their hats?"

No Doubt of It.

"Blanks says he is learning the touch system."

"He must be getting on; he borrowed a V from me five minutes after we were introduced."

Soaked Again.

Sapleigh—Since I met you I have had but one thought.

Miss Bright—Even that is more than I gave you credit for.

Daily Thought.

The silence that accepts merit as the most natural thing in the world, is the highest applause.—Emerson.

Make the Pennies Bigger

When James Buchanan was President and tall beaver hats were in vogue; when gentlemen wore broad cravats and ladies wore hoop skirts the pennies they tossed to children were as big as quarters. But the cart-wheel coppers your grandfather got for keeping his lace collar clean were not as big in buying power as the pennies of today.

A penny then might buy a pastry, or ten of them take one to the Fair, but your great-aunt and great-uncle couldn't have gone to a movie at any price.

Your great-gran-ther may have driven the fastest horse in the country and paid a tidy sum for it. But the price of a stable of thoroughbreds would not have bought him a fiver.

Sixty years ago the ladies could go shopping for dry goods and buy silks that would make you green with envy, liens that were linens and broadcloths that beggar description. But what their favorite store did not have they usually got along without.

You can pick up your daily newspaper and in fifteen minutes you can know what the different shops are offering in fabrics, patterns, varieties and qualities that great-grandmother never dreamed could be gathered under any conditions.

Times have changed, and so have merchandise and business methods. One of the influences that has helped to bring about so

much change, that has helped to multiply opportunities and increased the spending size of our pennies is advertising.

Every merchant, every manufacturer knows that advertising materially reduces selling costs by increasing the demand for and the distribution of the products of hundreds of thousands of mills. Indeed many of the things we count today as necessities or simple luxuries could not be made and sold at their reasonable prices except as advertising has created a broad market for them, making millions of sales at little prices and little profits.

And so you owe very much to advertising. You owe much to the people of yesterday who have read and been influenced by past advertising and so have made possible the economies and varieties and wide distribution of merchandise that you enjoy.

You owe present advertising a thorough reading. A greater familiarity with advertising, with advertisers and advertised merchandise makes continually for the increasing size of your pennies.

"HAPPY" VOIGHT GETS WAR CROSS

For Distinguished Service From
War Department—Refused to
Drop Out of Battle Though
Severely Wounded.

Among 33 New York state heroes
awarded the war cross for dis-
tinguished service by the war de-
partment is Ralph L. Voight of
Kingston. That he would earn one
everyone who knows "Happy"
Voight was almost certain just as
soon as they learned he had enlisted
in the Tank Corps several months
ago, because he is built for the part.
His mother, Mrs. Leonard Voight,
of 336 Clinton avenue, knew that
her son was wounded a long time
before the government notified her,
and when she wrote to him inquir-
ing how badly he had been wound-
ed, he replied that it did not amount
to much. "I only got a bullet in my
shoulder." As the citation, which
follows shows, he continued on duty
without revealing his wound. The
citation reads as follows:

AMERICAN SAFE IN BERLIN.

After Orgy of Spartacist Fighting
and Executions.

By Telegram to The Freeman.
Berlin, March 7, via London.
March 10.—Two hundred Spartas-
tides, who had taken part in the re-
cent fighting in this city, were sum-
marily executed today. They were
lined up against a wall and shot by
government troops.

At least 200 persons have been
killed and 500 wounded in the fight-
ing in the streets of Berlin alone.

A desperate battle was still raging
in the northwestern suburbs today.
(Mr. Anderson referred to fight-
ing that was in progress last Friday.)

Cable advice to the International
News Service on Saturday, quoting
wireless dispatches from Berlin, said
that the country revolt had been sup-
pressed and that quiet had been re-
stored at Berlin.

Alexander Platz, in the central
part of Berlin, looks like a battered
war front village. The pavements in
Kaiserstrasse have been blown up. It
is strewn with dead.

Police headquarters, around which
heavy fighting took place, has been
wrecked by explosives.

The people's naval division (Reds)
has been disbanded, demobilized and
sent away.

Private telephone communication
is being restored.

All the members of the United
States military mission, living at the
Hotel Adlon, are safe.

Make Best Use of Time.

Every man has the same chance in
the use of time. One may be faster
than another, but there are usually
compensating conditions that equalize
things. No always to the swift is
the race. Many a tortoise has beaten
horses in life. It's the tug of the hours
that counts. Make the minutes count
with well directed industry and you
have a profitable life in the making.
It's every man's right to make the
most of himself. He does this by his
use of the minutes.

Can't But Don't.

German engineers have found
that explosions can be caused in the
worst way by sparks from telephones, al-
though no kind of the kind has been
known to occur.

OLDEST "PRO" BALL PLAYER FOUND

He Is 60-Year-Old F. A. Galt of
The Catskills, Who Plays With
Two Sons and Hits Near .300.

The oldest active professional
baseball player in the country has
been found. He is F. A. Galt of
Catskill, N. Y., sixty years young,
still able to pull 'em down in the
outfield and strong enough with the
hickory to hit close to .300 last sea-
son, says the New York Sun in the
sporting department Sunday. With
the semi-pro Catskill team, of
which Galt is the player manager,
he last season made only three er-
rors in forty-three games in center
field and batted .222.

Galt has been managing the
Catskill team for fifteen years. He
broke into the game when a young-
ster with Jib McCormick, Kelly and
other later big league stars in Pat-
erson, N. J., in the days when that
town was represented by a great
team on the diamond.

Galt has two sons playing on the
Catskill team with him, one of them
Ray, being a shortstop of major
league calibre. In the opinion of
many of the experts who have
looked him over, Art Rice and
"Jiggs" Conner, two erstwhile
leaguers, also have berths on the
Catskill team.

The Catskill club, under Galt's
management, has made a brilliant
record. Three times the club de-
feated the Cuban Giants, 1 to 0. It
beat Albany, 1 to 0, in eleven in-
nings and downed the Hudson Pro-
fessionals, 1 to 0, in twenty-four in-
nings, a hitless inning 0 to 0 game
followed by a 1 to 0 nine inning
contest.

Last season with a lineup of state
league players Catskill defeated
Valatie, 1 to 0, in fourteen innings.
There was only one strikeout. Eight
double plays decorated the Catskill
defence. Ray Galt at short ac-
cepted fifteen chances and Rice at
third fourteen chances. Neither
team made an error.

The Art Rice mentioned above is
City Marshal Arthur Rice of this
city, and "Jiggs" Conner is "C"
Conner.

NEW CIGAR STORE

To be Opened by A. F. Crouthamel
on Upper Broadway.

In the building formerly occupied
for years by Nicholas Schermerhorn
as a saloon, and located next to the
barber shop of Val Schirick on
Broadway, between O'Neil street and
Field Court, A. F. Crouthamel, for
the past 15 years foreman of the
plant of the American Cigar Com-
pany in this city, will on Friday open
one of the finest up to date cigar to-
bacco, stationery and confectionery
stores in the city. His son, J. Ralph
Crouthamel, who is awaiting his re-
lease from active service in the navy,
will be associated in the business.

The interior of this modern store
has been thoroughly renovated and
new cases and cabinets of the latest
type installed for the proper preser-
vation of an extensive line for the
needs of the most critical smoker.

Mr. Crouthamel has been in the
tobacco business all of his life and
is recognized as one of the experts in
that line in this city. His experi-
ence dates back to the days when his
father was a manufacturer and ex-
pert tobacco man in Pennsylvania,
where he established himself in 1855.
Aside from his responsible position
with the American Cigar Company
in this city, Mr. Crouthamel was, for
a number of years, connected with
the General Cigar Company of New
Brunswick, N. J. He is well known
in this city as a man of strict integ-
rity and high efficiency and honesty
in business dealings and his loss with
his former employer at the local fac-
tory is keenly felt.

IDEAL heat "for all the people"

Never before have people demanded and enjoyed so many modern con-
veniences. But the greatest improvement of all—HOT WATER HEATING—has heretofore
been denied the wage earner because of the cost of excavating a cellar. With the invention
of the IDEAL ARCOLA Radiator-Boiler—piping is simplified and a cellar is not needed.

The new IDEAL ARCOLA radiator-boiler

Puts IDEAL HOT WATER HEATING comfort in workman's
cottage, cellarless small stores, country schools, cellarless churches, etc.

The IDEAL ARCOLA takes the place of a parlor stove. But a stove wastes much of
its heat up the chimney, whereas the IDEAL ARCOLA is water-jacketed, and con-
veys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in
the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is
therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL
ARCOLA does not rust out or wear out—will outlast the building—is a genuine, permanent investment!

Shipped complete ready for immediate operation

The beauty of the IDEAL ARCOLA method is that no cellar is needed. Everything is on one floor. The ARCOLA is
placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the
building, each can have his own ARCOLA and make the temperature to suit his own needs—can make his own climate!
If you do not wish at first to heat the entire building, buy a small size IDEAL ARCOLA and later on buy extra sections
for the IDEAL ARCOLA and two or three more radiators to warm more rooms.

Cleanly heating—healthful heating—free from fire risks!

Unlike stoves, there are no coal-gas leaks into the living rooms. The IDEAL ARCOLA delivers the soft, radiant warmth
of hot water—not the dry, burnt-out atmosphere of stove heating. There is no fire-risk to building—no danger to
children—fire lasts for hours! The ARCOLA burns hard or soft coal, coke, gas, or wood. Brings cost of heating down
to the lowest notch—and gives IDEAL comfort.

Put in quickly without disturbing your stove till ready to start
fire in the new outfit. Sold by all dealers. Send for catalog

Facial Expression.

The frequent repetition of any fa-
cial expression causes permanent al-
terations in the expression, and these
correspond with, and suggest to the
beholder, the emotional state that has
predominated; so that the man who is
always laughing comes to look "a jolly
man," the thinker a thoughtful man,
and the woman who worries begins to
wear a worried look that persists—
Darwin.

Hadn't Changed.

One day a little boy came to the
postoffice window asking for mail.
The clerk inquired the boy's name and
gave him some mail. The following
day he again appeared asking for
mail, but was not recognized by the
busy clerk, who inquired, "Whose lit-
tle boy are you?" And the boy, look-
ing trustfully up into her face, replied,
"Why, I'm the same little boy I was
yesterday."

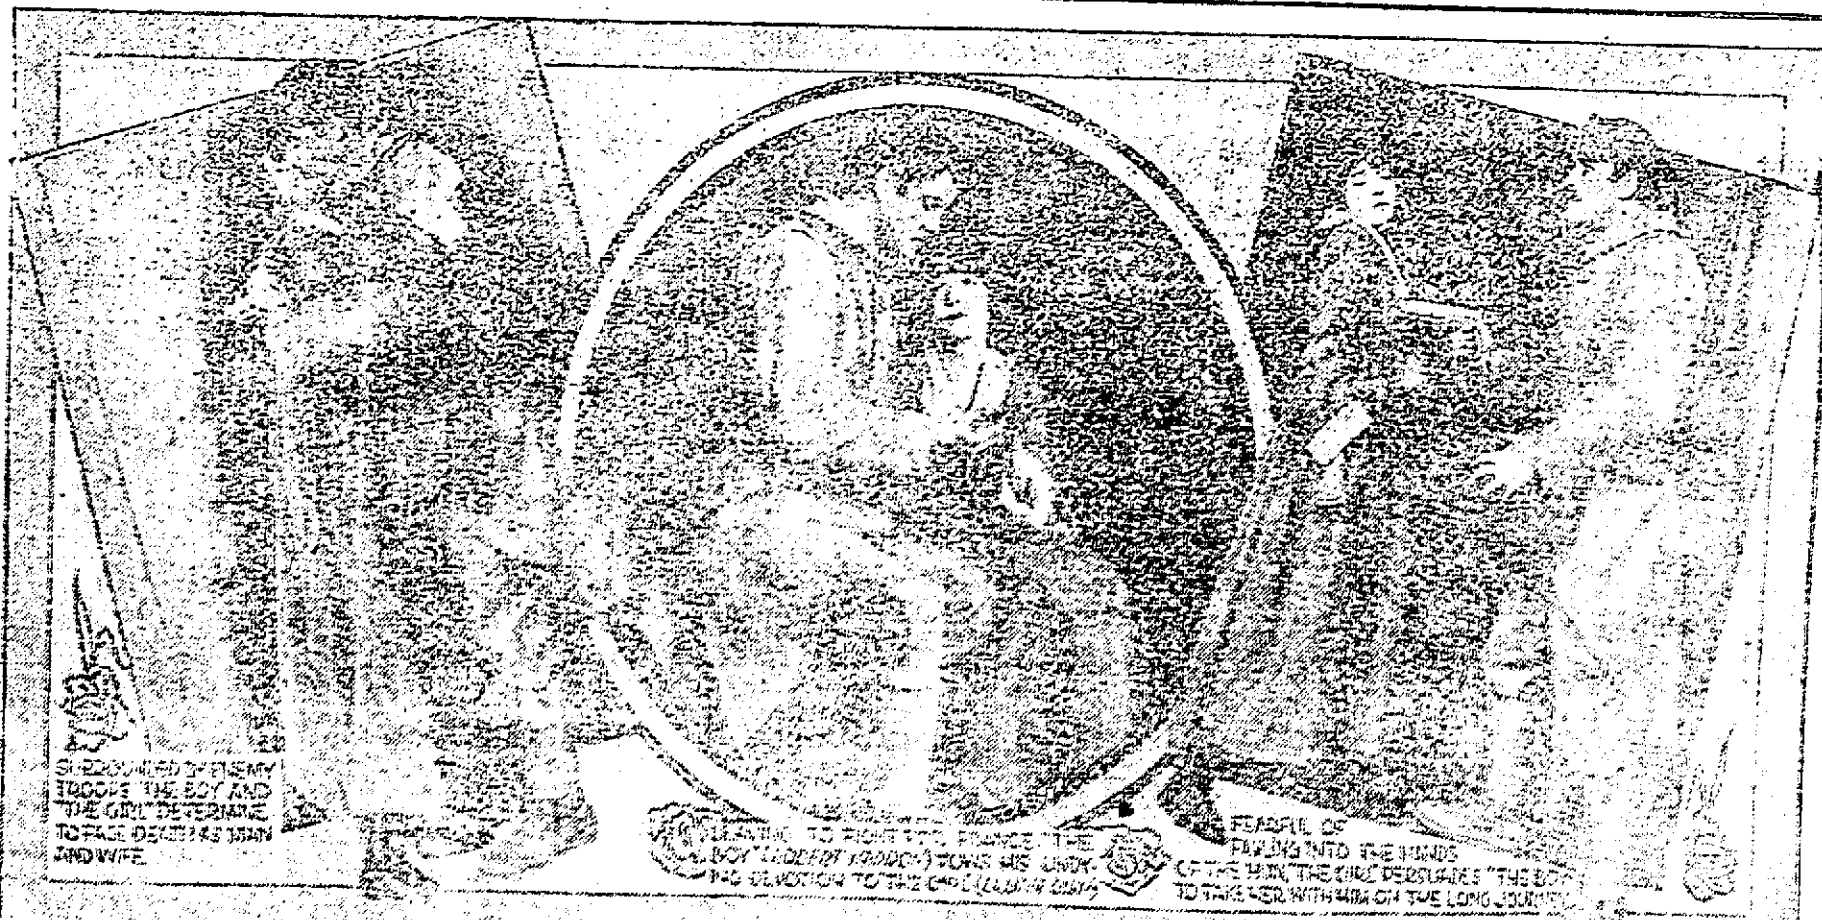

Beliefs Concerning Sneezing.

According to Aristotle, if a man was
sick sneezing once forbode his death,
but sneezing twice his recovery. If
the patient was a woman the rule
worked the opposite way. A traveler
in the woods was threatened with an
attack by brigands if he sneezed once,
while sneezing twice presaged a happy
journey. As a rule, the person sneez-
ing twice in succession will be lucky,
but unlucky if it occurs once.

Called a Camisole.

The invariable subject was being
discussed in a car between two men.
Said the first: "I got on with every-
thing lay the meat, and eat's most-
ly too tough for me to me age." "The
meat's all right at our new," rejoined
the second; "they learned my girl
cookery at school, and she gets the
meat quite tender in a French cook-
ing pot they call a camisole."

WHO WANTS STATE POLICE?

Ask the People Who Live in Lonesome Places, Far From Patrolled Cities and Towns.

ONLY RURAL PROTECTION

Ask the people who live in lonesome places, far from the protection afforded the residents of towns and cities. There is much evidence in the first annual report, just issued by Superintendent George F. Chandler, detailing the work accomplished during the past year, that it would be a grave mistake to deprive the rural districts of that protection.

Last year this force made 3,750 arrests and in 3,168 instances the criminals were convicted. Of the remaining cases 10 per cent, are still pending in the courts; only 6 per cent resulted in actual discharge. In addition 4,836 investigations were made without arrests.

Among the serious crimes which resulted in the apprehension and conviction of the perpetrators were murder, felonious assault, highway robbery, grand larceny, burglary, arson, kidnapping and 20 cases of offenses against women and children.

The convictions for gambling, drunkenness, prostitution, keeping disorderly houses and violations of the liquor laws were abundant. The greatest number of arrests were made for violations of the motor vehicle law, 1,805 arrests were made and 1,658 convictions obtained. The report says: "The Secretary of State's office is authorized by the statement that between \$300,000 and \$400,000 a year is being added to the State's revenue due to the activity of this force (State Troopers) in rounding up those who try to avoid payment of the automobile license tax." It is estimated by the same source that a force of one hundred inspectors would be required but for the existence of the State Troopers. Despite the fact that there was an increase of 50,000 cars during the year the accidents outside of New York City were reduced 64 per cent.

Troopers Enforce Quarantine.

The troopers aided in enforcing the quarantine of the Agricultural Department against rabies, and the sheep industry was benefited by a campaign against sheep-killing dogs. The Conservation Commission was assisted in the enforcement of the fish and game laws and in fighting forest fires. The Department of Health was aided in the enforcement of quarantine. Assistance was rendered in the capture of prisoners escaped from State penitentiaries and insane hospitals.

The following letter is included in the report:

War Department,
Office of the Chief of Staff,
Washington, Dec. 21, 1918.

Mr. George F. Chandler, Acting Superintendent New York State Troopers, Albany, N. Y.

Dear Sir:
I wish to thank you and the New York State Troopers for your and their constant cooperation with the Military Intelligence Division and the able assistance rendered the Government in the work of locating and investigating enemy suspects in New York State. Without such assistance this division could hardly have accomplished much which it has been able to do, and the aid thus given has had no negligible part in the successful prosecution of the war.

I assure you that your efforts and those of the New York State Troopers are fully appreciated. Very truly yours,

JOHN M. DUNN,

Colonel General Staff, Acting Director Military Intelligence.

During the year the State Police patrolled 704,278 miles of road. Of this amount 230,039 miles were covered by the mounted men and 474,239 miles on motorcycles or in automobiles. The highway patrol is the most efficient preventive of crime in the rural districts. The fact that the potential violator of the law is never certain when he may meet an officer on patrol duty has the same deterrent effect that it does in a city.

Force Pays Own Way.

The most careful reading of the brief and his possible report gives evidence of the effectiveness of the system. It is obvious that the dwellers in the country should be protected from the criminal element that on the roads and in the woods. It would not be an exaggeration to say that the troopers are the best paid for their work and the best equipped. The troopers are not only the best paid but they are also the best equipped. The troopers are not only the best paid but they are also the best equipped.

Since in certain circumstances the troopers are not only the best paid but they are also the best equipped. The troopers are not only the best paid but they are also the best equipped. The troopers are not only the best paid but they are also the best equipped.

The branch of Government has at most paid its own way.

One Teeth in Teeth.

In June, 1918, the professional tooth pullers of the State were notified that they were to be licensed. The law was passed in June, 1918, and the law was passed in June, 1918.

SHOPPER FOR THE WOUNDED

Miss Anne Rea, daughter of Mr. and Mrs. Henry Rea of Pittsburgh, is the official shopper for the wounded at Walter Reed hospital, Washington. Since the beginning of the war she has, with her mother, been active in Red Cross work, both in Washington and in Pittsburgh.

Just a Little Farther On.

Some years ago, when North Carolina voted "dry," its citizens became very suspicious of strangers. One day a commercial traveler offered an old negro 82¢ if he would lead him to some place where he could get a drink.

After some hesitation the old fellow agreed and the trip began. He led the thirsty one through the town, on through the suburbs into the country, and then started due west.

"Look here, Sam," said the other, losing patience, "where are we going after this drink, anyway?"

"We're going over into Kentucky, boss," was the reply. "We can't get nuthin' in dis state."—Boston Transcript.

Official Ending of War.

Peace is sometimes brought about by the intervention of a nation or ruler acting as mediator. Pope Urban VI acted as such in the years preceding the peace of Westphalia. In 1697 Sweden acted as mediator in the treaty of Ryswick between France on the one side and England, Germany, Spain and Holland on the other. In the war of 1814 Russia attempted to be the peacemaker but Britain rejected her good offices. Austria helped to bring the Crimean war to an end. The United States sought to end the struggle of 1838 between France and Mexico. In 1890 the United States again intervened this time between France and Great Britain on the one hand, and China on the other. In 1895 we tried to end hostilities between Spain and the republics on the west coast of South America, the proffer being accepted some years later.

When the Chickens Popped.

One of the best "tail tales" of the season comes out of the desert that lies—no pun intended—on the border of California. Even the village lads feel the heat here, says Mr. M. E. Edwards in Travel, and its reaction has added much to the sum total of desert tales. One old-timer who has a chicken farm near the Salton sea testifies as follows: Early one hot morning, just after dawn, he got up to feed his chickens. Paving round in the yet obscure interior of his shack, he got what he supposed was his bag of chicken feed. Dumping its contents into the egg-proof chicken yard, he went off to the house to cook his own breakfast, leaving the poultry to partake at leisure. Until late in the forenoon he busied himself at other chores, then went to look at his hens. They were all dead—and badly mutilated. "It's all my fault," he mournfully admitted. "I gave 'em seed pop corn by mistake, and when the sun got up it popped and blowed my chickens to pieces."

When the Door Sings.

It ruffles the tidy nature of the housewife to have to pull and jerk at her door to open it, and then to have to coax and push to shut it. A door should fit in its frame like a stopper. In a bottle, he thought. A cursory examination disclosed that it stuck at the bottom. Of course, if the swelling had been at the top it would have been so easy to plane off the surplus. But at the bottom! He tried tightening the screws in the upper hinge, which were quite loose, but found the wood so soft that even longer screws would not hold. There seemed to be nothing to do but remove the upper hinge, dig out the soft wood and insert in its place a piece of new wood, which held the hinge firmly and prevented the door from sagging.

Living High in South Seas.

Living conditions in the South seas are quite the opposite to the popular idea conveyed in books of romance and adventure. Instead of being able to loaf under the shade of palms and having the fruits thereof drop into one's mouth the daily needs are obtainable through the medium of hard toil. Living, if one desires to live according to the standards of the white man, is as expensive as in any other part of the world. According to those who have lived there for some time, it is the last place in the world for a man without capital to camp. Cruise officers have a regular form wherein they acquire against attempts to swindle these unfortunates with single friends, as there are but few opportunities for obtaining employment.

DRUGGISTS: VICK'S VAPORUB SHORTAGE OVERCOME AT LAST

The Deal Scheduled for Last November, Which Was Postponed on Account of the Influenza Epidemic, Is Now Reinstated—Good During the Month of March.

OVER ONE MILLION JARS OF VAPORUB PRODUCED EACH WEEK.

It is with pride that we announce the drug trade that the shortage of Vick's Vaporub, which has lasted since last October, is now overcome. Since January 1st, we have been turning our laboratory twenty-three and a half hours out of every twenty-four. Last week we shipped the last of our back orders, and retail druggists, therefore, are no longer requested to order in small quantities only.

NOVEMBER DEAL RE-INSTITUTED.

This deal, which we had expected to put on last November and which had to be postponed on account of the shortage of Vaporub, is reinstated for the month of March. This allows a discount of 10% on shipments from jobbers' stock of quantities of from 1 to 4 gross. 5% of this discount is allowed by the jobber and 5% by us.

We advise the retail druggists to place their orders immediately, so that the jobbers will be able to get prompt shipments to them.

THANKS OF THE PUBLIC DUE THE DRUG TRADE DURING THE INFLUENZA EPIDEMIC

The thanks of the American public are certainly due the entire drug trade—retail, wholesale and manufacturing—for what they accomplished during the recent influenza epidemic. The war caused a shortage of physicians—nurses were almost impossible to obtain—the demand on the drug trade was unexpected and overwhelming, and to this demand they responded nobly. Retail druggists kept open day and night and slept where they dropped behind the prescription counter. Wholesale druggists called their salesmen off the road to help fill orders—hundreds wired us to ship Vick's Vaporub by the quickest route, regardless of expense.

A TREMENDOUS JOB TO INCREASE OUR PRODUCTION.

In this emergency we have tried to do our part. We secured the

country for raw materials—our Traffic Manager spent his days riding freight cars in—we shipped raw materials in carload lots by express and pleaded with manufacturers to increase their deliveries to us.

But it was a slow process. Some of our raw materials are produced only in Japan—supplies in this country were low and shipments required three months to come from the Far East. Then we had to reorganize and train skilled labor. We brought our salesmen into the factory and trained them as foremen. We invented new machinery, and managed to install it on Christmas Day so as not to interfere with our daily production.

148 JARS OF VAPORUB EVERY MINUTE DAY AND NIGHT.

By January 1st we had everything ready to put on our night shift, and since then our laboratory has been running day and night. To feed our automatic machines, which drop out one hundred and forty-three jars of Vaporub a minute or one million and eighty thousand yearly, has required a force of 500 people. Our Cafe Department, created for the benefit of these workers, served 7,096 meals during the month of January alone.

13 MILLION JARS OF VAPORUB DISTRIBUTED SINCE OCTOBER.

An idea of the work we have accomplished this Fall may be given by our production figures—13,028,976 jars of Vaporub manufactured and distributed since last October—one jar for every two families in the entire United States.

During the influenza epidemic, Vick's Vaporub was used as an external application in connection with the physician's treatment, and thousands of people, unable to obtain a doctor, relied on Vick's almost exclusively.

Literally millions of families all over the country, from California to Maine, and from the Great Lakes to the Gulf, have found Vick's Vaporub the ideal home remedy for cough and cold troubles.

VICK'S VAPORUB

WHAT THE "FOND DU LAC" WILL ACCOMPLISH

It will do what five horses will do it better—do it faster—will work continuously—needs no rest—feels only when it works—requires only half the value of feed—it will pull plows, lists, graders, scrapers.

Will pull two 12 or 14-inch moldboard plows 2 to 2½ miles per hour, plowing 5 to 7 acres per day of ten hours, where five horses can pull the same plows.

Will disc 20 to 25 acres per day. Will harrow 40 to 50 acres per day. Will cut 20 to 25 acres of grass per day, using two mowers.

Will harvest 15 to 20 acres of grain per day. Will pull a wagon loaded up to 6,000 pounds on an ordinary road. Will seed 26 to 35 acres per day. Will roll 40 acres per day. Will pull more than one of many machines or implements.

"It Goes Where None Dare Follow." Will pull several wagons, mowers, and other implements in train. Will pay for itself and a new Ford in two years.

Will pull any implement or machinery with all the speed the implement can stand, regulating the speed by the use of the varying sized gears, which can always be furnished when desired.

Performance Guarantee

We positively guarantee that the combination of the FOND DU LAC and a Ford in good condition will start and run continuously on high gear, developing power equal to five good horses.

LIFE OF FORD equipped in this manner will be at least as long as when used for pleasure, as the load on the motor and transmission is not increased. The engine does the pulling on high gear. The pull comes on the new axle, wheels and draw bar, which are amply heavy to withstand it.

Price \$225.00 and Any Ford Chassis.

The Stroller Hears of Bright Prospects for Athletic Sport This Summer—Crossing Fire Flies With Bees—A Back to Nature Yarn.

"Kingston ought to be an enjoyable summer resort this year," said the busy barber as he tested the edge of the razor blade he was sharpening.

"How is that?" asked the customer, dropping the newspaper he was reading.

"Why, according to The Freeman, the Twilight League starts, there are plans underfoot for a big athletic field with a race track for horses, and there is talk of getting up a baseball team to represent the city," explained the barber.

"I certainly hope the athletic field as planned goes through," said the customer, "for it would mean a big thing, I believe, for the city, and baseball also helps."

"You bet," replied the barber, "but changing the subject a hot back to nature yarn was needed of this morning by a fellow in for a shave."

"Shoot it along," suggested the customer.

"He claimed," continued the barber, "that he had gone in for bee culture and cleaned up a nice sum placing honey on the market. He reached the conclusion he would clear a bigger profit if his bees would put in a longer day. He gave the matter much thought and decided to attempt to cross his bees with fire flies."

"By doing that," he believed that the bees would work longer at night as they would carry their lanterns along with them and would be able to see what they were doing."

"He succeeded after some trouble in successfully crossing some bees with fire flies. The fire fly bee was a wonder. He was much larger and emitted a very powerful light. In fact so powerful was the light that it brought the scheme on the rocks."

"How is that?" asked the customer.

"The light emitted by the fire fly bee was so brilliant and threw out so much heat that the insects caught fire from their own light and were consumed," he said, explained the barber.

Vaudeville at Keeney Theater.

Always on the lookout to provide pleasant surprises for his patrons, Frank Keeney has arranged to have one of the best blackface comedians in New York city present the first three days this week in a striking vaudeville act at the Keeney Theater in addition to the high class pictures at Kingston's new play house.

The picture to be presented today is "Forfeits" featuring House Peters and Jane Miller, two of the most versatile stars now shown on the screen. Mr. Peters has starred in various plays to good advantage and is a favorite with the lovers of humor, while Miss Miller, a comparative newcomer, has already thousands of admirers.

Several breaking attendance at today's performances show that the Keeney Theater is well patronized and with the additional entertainment, all theater-goers may rest assured no pains will be spared in management to make this one of the best in the Keeney series, which is in itself a sufficient guarantee.

Due to a slight mistake in the booking the picture, "The Unchained Woman," which was advertised for today, will not be shown, but instead the play "Forfeits" will be given.

The vaudeville program will be changed daily as well as the pictures, a feature that will take immensely with all patrons.

The program for the week is advertised daily in the columns of the newspapers, thus enabling the movie fans to select which days they may see their favorite stars. Those who have heard the wonderful \$10,000 organ in conjunction with the Keeney orchestra are loud in their praises over the program rendered and express themselves delighted with this innovation.

In addition to the main feature picture shown, Pathe comedy and travel pictures are given daily. Advertisement.

Roadout Presbyterian Notes.

Friday evening the men of the church will be tendered a dinner in the Roadout Presbyterian Church at 7 o'clock through the courtesy of the ladies of the church. The Rev. James G. Bailey, district campaign organizer of the New Era Movement, and another speaker will be present.

The funeral was held from the Church of the Holy Spirit, Bunside and University avenue, this morning at 10 o'clock.

How Macaroni Got Name.

The origin of macaroni dates back to one of the Kings of Naples who constantly taxed the inventive power of his cook. One day a dish was put on the king's table, of which he highly approved, and upon inquiry as to the expense of the new dish, the cook mentioned a sum which in these days was thought high; whereupon the king exclaimed: "Bouni ma caroni!" "Good but very dear." Hence the name.

Y. M. C. A. DRIVE GETS GOOD START

Saturday's Report Shows Interest in Campaign for 200 New Members of Local "Y"—Ladies Serve Mice to Campaigners.

"On with the fight," is the slogan which is being carried to an unconditional surrender of every possible boy in the city who can be procured as a prospective member of the "Y" and be brought in under the present drive that they are now carrying on in the city for 200 additional members of the boys' department of the local association. At the first gathering of the workers in the reception parlors of the "Y" last Saturday night the various battalions reported as a starter 15 new members and \$15 in cash. This is an accomplishment considering the fact that they are still in the reserve lines and have not actually started to the front as yet. Today the drive is expected to break the line and several new members will be captured and introduced and then eventually the boys will come "over the top" victors as were their big brothers in the recent world war.

Preceding the reports on Saturday night every soldier appetite was satisfied with "mess rear" blew and all of the boys were entertained at mess by the Ladies' Auxiliary of the association. Intermingled with the eats were songs to which all of the boys dropped their "pie" and joined in with song leader Principal Lewis, of the high school. If mothers and fathers could have witnessed the evident enjoyment of the hundred boys present they would surrender their sons to the workers as new members, but the boys believe in fighting for what they and their association stands for and they will set their ideals before the public before the drive is over.

Major L. F. Regendahl's "bomb throwers" were the first to return from "no man's land" with a total of four new members for which they were awarded the honor of wearing as their battalion colors a standard containing the allied colors. This battalion of heroes is composed of Major L. F. Regendahl, Captain Harry Winchell and Privates Frank Reil, Richard Blass, Pat Gallagher, David Harris, Clifford Harris, Frank Koenig, Adolph Munson, Arthur Floyd, Walter Carney, Elwyn Rousa, Clarence Proper. None of these boys were wounded and they report that the new members came with them very quietly.

Commander in Chief W. H. Niles and Major General William C. DeWitt were not present and are reported "missing in action," so Major General Frank B. Matthews took charge of the division of workers and made a few remarks about the preparations that must be taken by the boys in entering this drive for members and emphasizing the fact that a good soldier never lays down his arms. Using General Ryan's orders to the famous 27th before they broke the Hindenburg line, Mr. Matthews laid out a few orders which the boys will follow. Frank R. Powley also encouraged the boys to return victors next Saturday night at the final close of the drive and show the people of Kingston the importance of the local "Y" as a center of civic activity for the boys.

Another mobilization will take place at the "Y" on Wednesday evening at 6 o'clock when the boys will again be served with mess by the ladies and their reports will be heard. On Saturday evening of this week the drive will end and the battalions will be taken to an embarkation camp and demobilized. It is an important factor in this drive that the parents of the boys realize the benefits of this organization for their sons and their co-operation is necessary if this drive is to be a success. Just get in touch with the "efficient boys" secretary at the "Y," S. P. Hines, and find out what a real boy can educate himself to with the surroundings of the Y. M. C. A. In this campaign will be presented with a button bearing the inscription "They got me, they will you." Watch for the buttons and then watch the improvement in the life of the wearer.

ST. JAMES'S M. E. UNION SERVICE

More Than 1,500 Persons at Stereopticon Lecture in St. James's Church—Five Year Campaign On to Raise \$85,000,000 For Methodist Missions.

The St. James M. E. Church was filled last evening to hear Dr. B. B. Corbin, the returned missionary from India, in connection with his interesting lecture and slide views of the work that is being covered, a fine musical program had been arranged for this united service of the Clinton Avenue, St. James, Trinity, M. E. and Port Ewen Methodist Churches.

In the stereopticon views that accompanied Dr. Corbin's lecture on his work among the natives of India, practically every country where a missionary is stationed was covered and the work done there. They included the fields of Mexico, India, South America, China, Africa and the Malay Islands.

Dr. Haragwanath, pastor of the St. James Church, presided at the service which was one of the most enthusiastic union services yet to be held in the city churches. W. N. Seales, district chairman of the movement under foot in the Methodist Church for the raising of mission funds, and well known in this city as a baritone soloist, delighted the attentive listeners with excellent vocal selections.

At present there is a campaign on in the Methodist Church throughout the country and world to raise in five years \$85,000,000 for work in the foreign mission fields covered by this church and the quota of this district, including 63 churches, is \$82,000 a year for five years. The largest amount to be paid to this fund up to date came from one of the prominent Chinamen in his native country and was in excess of \$3,000,000. The mission work of this church was established in 1819 and it is now celebrating the one hundredth anniversary of its foundation with this campaign for the furtherance of the work that is so essential in the uplift of humanity in foreign countries where heathenism exists.
